

REFERENCE LETTER

We have come into contact with the company H-ON using the best possible advertising channel, word of mouth.

The high quality standards, the high skills in the field of machine safety, an infinite knowledge of the production processes, together with a great dynamism, open-mindedness and high communication skills are undoubtedly the rules of success of H-ON, which make it a worldwide excellence in the field of safety in the workplace.

The work commissioned to H-ON, in relation to gap analysis and assessment of evident risks, has gone beyond our expectations and thanks to their contribution we have been able to further improve the safety of our plants, our equipment and more importantly the safety of our employees, without forgetting our goals of productivity and efficiency.

We highly recommend H-ON consulting service for their expert industrial knowledge concerning machines, process, digital data.

Mestrino (PD), 10/09/2020

Sincerely
Project leader Caprara Marco
