H-ON Consulting  
Via Lepanto 23

Their well-known flexibility has been the main reason why we have chosen H-ON Consulting as our supplier.

H-ON team also demonstrated an extensive expertise in the field of CE marking (Directive 2006/42/EC) and its Minimum Health and Safety Requirements (2009/104/EC, Annex V for Italy).

They supported us to manage the legislative gaps in an optimal manner in order to restore the conformity of our work equipment.

Sincerely,
