

23rd August 2016

Subject: Reference Letter

With this letter we confirm that H-ON Consulting has been our company's main supplier for CE marking and Safety integrity level (SIL) services since 2011.

Since 2011, H-ON has assisted us to reach the highest safety standards on our installed production machines. They have helped us find practical solutions for our previously installed machines that need to be upgraded to comply with local standards at the same time as new ones, this is not an easy task. However, H-ON can do it!

They have successfully helped us to comply with European standards and with our machines safety policy group. Whilst working on projects with them we have completely felt the high operative experience that the whole team offers and highly recommend them for an high level of expertise.
