Testing Laboratory of Explosion-Proof and Mine Electrical
Equipment (TL CCVE).
Certificate of acceptance
№ POCC RU.0001.21ГБ04
Accepted in the IECEx Scheme

26 January 2016

Dear Mr Latini,

NANIO CCVE has been cooperating with H-ON Consulting as a partner in terms of providing third party conformity assessment. One of the most significant advantages in working with them is that H-ON specialists are aware of the current regulations and procedures of certification. They can define exactly what is needed for the customer while acting as a facilitator between a manufacturer/customer and a certification body. Our cooperation has made it possible to carry out large-scale complex projects, agreed upon mutually acceptable terms of cooperation and we have achieved positive results in a relatively short time. H-ON managers demonstrate a high level of professional competence and have a constant active involvement during the process.

We highly appreciate working with H-ON Consulting and look forward to proceed and develop our joint activities in the future.

Sincerely yours,

Alexander Zalugin

General Director
